12th ENCOUNTERS South African International Documentary Festival

ENCOUNTERS will show a selection of documentary films from around the world, with a particular focus on South African work

Cape Town - the organisers of ENCOUNTERS - are proud to announce the dates and locations of the 12th edition of the South African International Documentary Festival.

From 12-29 August ENCOUNTERS will showcase at Nu Metro Cinemas, V&A Waterfront and The Classic On Broadway, in Long Street, Cape Town, as well as in Johannesburg from 20 - 29 August 2010.

ENCOUNTERS is a pivotal event on the film circuit calendar and will offer filmgoers an exceptional and varied selection of 40 of the best documentary films available locally and internationally, including 8 World Premieres.

Award winning South African director Cliff Bestall and Academy Award winner Morgan Freeman's collaboration on the highly acclaimed *16th Man* is one of the Festival highlights.

Also featured is the entertaining and quirky *Monty Python: Almost the Truth (The Lawyers Cut)*, a film produced for the BBC which tells the story from inception to present day of this legendary comedy group.

Another must-see this year is *RFK in the Land of Apartheid: A Ripple of Hope*, co-directed by Larry Shore and the award winning Tami Gold, which features previously unseen archive footage of this historic visit.

The Festival will host a number of local and international guests who will take part in Q&A's and panel discussions, masterclasses will also be on offer.
